player interface in Russian. In the main window of the program we see a list of categories and subcategories. Each of them
opens in a separate tab. For example, in the "Music" category we see the name and genre of the track being played, as well as a
list of its artists or authors. When you go to the "Social Networks" subgroup, the first thing we see is the "Vkontakte" group. Just
there you can find the music that will be available for download (at the bottom of the panel on the right). In addition, there is
also a link to the Vkontakte site, from which you can immediately download the track you like. In general, there is nothing
difficult, we figured out how to add music to VK, the only thing left is to deal with the process of downloading. How to
download music in VK To download music from VK, you need to go to the "Music" section of the menu. To do this, click on
the down arrow next to the thumbnail of the appropriate group. Thumbnails of all groups you've shared, starting from the
current one, will be displayed here. In the Music section, the following categories are available: Music that you've added to your
account, favorites, or shared in another VK community. Downloaded music. If you're downloading music, the "My Tracks"
section on the right side of the page will display the result.
